Bachelor of Technology in Cybersecurity

Institution: Anurag University - 2027

PROJECTS

CipherLock

CipherLock is a versatile file encryption/decryption utility providing end-to-end encryption for files and folders. It offers a user-friendly interface, customizable encryption algorithms, and batch processing capabilities.

ChatNet

A real-time network chat application allowing users to communicate securely over local or wide-area networks. Features include user authentication, message encryption, and multi-user chat rooms.

Secrets of the Lost Realm

Embark on an epic treasure hunt in diverse 3D environments. Solve puzzles, decipher clues, and uncover hidden treasures amidst perilous landscapes.

Enigmatic Escape

Navigate through a challenging 3D maze filled with puzzles and traps. Find your way to the exit while discovering ancient relics and treasures.
